

Data analysis questions

General questions for the group

- What went well?
- What didn't go so well?
- What would you do differently next time?

Feedback from the field visit

Introduction

- Context of the data collection

General information on the school

- Background information obtained (e.g. size of school, etc.)

Findings

- Findings from the school
- Other observations
- General observations (perhaps related to another topic)

Analysis

- What does this tell us about the school and free and compulsory education?
- What does this tell us about the legal and policy framework of the country?

Conclusion?

- What are your main conclusions?

Recommendations

- What are you recommending to the school?
